SAVE A LIFE

FREE CPR/AED TRAINING

Dear Presque Isle Community Workers, Business Owners and their Employees,

The Presque Isle Volunteer Fire Department and EMS are offering a free CPR/AED training to empower our community to save lives. Your quick actions can make a critical difference. Here's why you should attend:

- Over 350,000 Americans experience sudden cardiac arrest outside of a hospital each year, with a survival rate below 10%.
- Immediate CPR and the use of an Automated External Defibrillator (AED) can triple a person's chance of survival.
- Our town is better prepared than ever, with 11 AED units strategically placed in local businesses, the community center, library and church.

YOUR PARTICIPATION ENSURES THESE LIFE-SAVING DEVICES ARE ACCESSIBLE TO TRAINED HANDS. THIS IS A VITAL OPPORTUNITY TO LEARN HOW TO INITIATE CARE BEFORE EMS ARRIVES. PLEASE PLAN TO JOIN US!

September 10th 3:30 – 5:30 p.m.
